NetServiceBooks Web
Based Service Software

NSBLite

Work from anywhere, anytime!

Web Based Service Software

NetServiceBooks is the first fully web based system designed specifically for the HVAC/Plumbing industry. NSB integrates the entire service process. Our goal is to provide the HVAC/Plumbing industry with the mobility to work from anywhere, anytime.

Our web based service software is **integrated with Google Maps**, **is QuickBooks compatible**, **contains Flat Rate Pricing** features and is competitively priced with a monthly subscription based on the number of users.

NSBLite: A Simple Solution

Web based dispatching, invoicing and billing has never been easier! Introducing a simple version of our web based service software, NSBLite. Features include...

Dispatching & Scheduling:

Full Schedule Board including an easy to use Dispatching Wizard that will page your technicians with work order information when completed.

Invoicing:

The technician's live invoice, including the customer's signature, can be viewed instantly in the office.

Billing:

Live customer information, equipment tracking and invoicing from the work order cut the billing process time in half. Double check your invoices and print, fax or email them to your customers, or provide your technicians with the tools to hand them out at the customer's site.

Live support:

Instant messaging is provided from your NSBLite Menu. Any questions or issues can be addressed immediately during business hours (we still provide phone support, but IM is so fast and convenient).

Optional:

NSBLite syncs with QuickBooks! Transfer over your Accounts Receivable and customer updates using our NSB/QuickBooks Sync.

Try Web Based

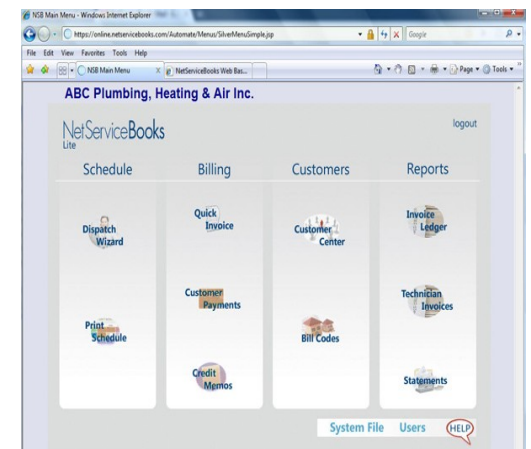

Are you overwhelmed with work?

Take the time to make the switch! Make your business more profitable. *Get your life back* by getting out from under the day to day mess of all the paper and jotted down notes for schedules.

We understand how time consuming it is to implement a new software solution in the office. That is why we've created this simple version: simple dispatching and billing.

Contact us or go to www.netservicebooks.com and drive our demo version.

Try NSBLite today!

NSBLite Menu features Dispatching & Billing.
