New Portable Coil Washing System

Great For Evaporator Coils Too!

Clean Condenser Coils From The Inside.

Compact Coil Cleaning

Specifications

Input Power: 7.0 amps, 12 V, DC, deep-cycle, rechargeable, sealed lead acid battery

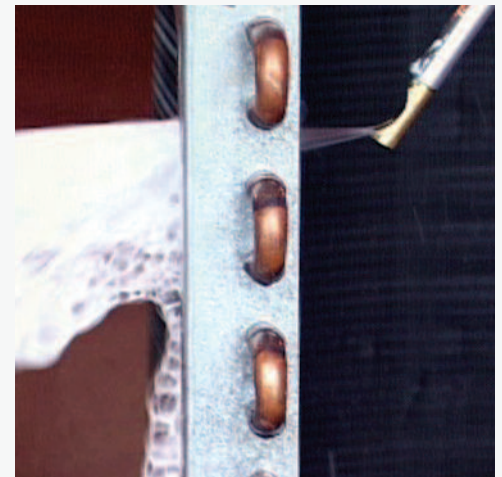

Output Pressure/Flow: 100 PSI at 0.5 GPM

Water Tank: 3 3/8 gallons

Soap/Chemical Tank: 1 3/4 Quart

Dimensions: 19" high x 10" wide x 18" deep

Weight: 20 lbs net dry (50 lbs full)

90° spray wand gets behind coils.

Optional aerated nozzle creates thick foam that penetrates deep into coils.

Powerful 100 PSI spray drives cleaning solutions through the fins without damaging them.
