AIR CONDITIONER

SOFTSOUND™ SX 2600

AIR CONDITIONER

The intelligent choice in comfort.

Quality extras for quiet operation.

No detail has been overlooked in making this premium air conditioner in the Comfortmaker® SoftSound™ line. You'll appreciate the sleek and durable cabinet design with its appliance-grade paint finish. The quiet operation comes from solid construction and noise-reducing features such as the two-speed fan motor running mostly on low speed. Together with exceptional warranties, this air conditioner offers you the finest in cool comfort for your home.

Premium features for longer life.

The scroll compressor ranks as the top industry choice for efficiency and reliability. Many more extras—including a filter drier, a compressor sound jacket, and an innovative grille design—keep the SoftSound SX 2600 running smoothly and quietly year after year.

Strong warranties for superior protection.

Comfortmaker units are backed by exceptional warranties, including our No Hassle Replacement™ limited warranty, which gives the original purchaser a one-time replacement unit if the compressor or outdoor coil should fail due to defect within the first five years. You also get a 10 year parts limited warranty upon timely registration.*

*Limited warranty period is 5 years for parts if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. Please see warranty certificate for further details and restrictions.

Standard features that set high standards.

Quiet

The scroll compressor operates without noisy pistons and has a sound blanket to reduce compressor sound levels.

High efficiency saves you money.

The up to 16 SEER[†] rating[▼] means the SoftSound SX 2600 gives you substantial energy cost savings. You could save up to 37% compared to an older 10 SEER unit!

[†]SEER stands for Seasonal Energy Efficiency Ratio.

[▼]16 SEER rating when paired with select indoor equipment.

R410A is an EPA-approved, environmentally sound refrigerant.

SEER vs. Cooling Cost Savings

Percentage based on national averages at 10 SEER; may vary according to efficiency of current unit and installation.

Four seasons of complete comfort.

Since heating and cooling systems are designed to work together, Comfortmaker Air Conditioning & Heating strongly recommends that you have your dealer install both at the same time for optimum efficiency, savings, and comfort.

- a. Humidifier enhances comfort by reducing dryness in the air.
- b. Air Cleaner filters out many indoor air pollutants so the air in your home is cleaner.
- c. Set-Back Thermostat allows you to customize heating and cooling levels and also save energy.
- d. Furnace is designed for maximum comfort and high efficiency and built rugged for years of operation.
- e. Air Conditioner keeps your home cool and comfortable.
- f. Evaporator/Indoor Coil, to match your Comfortmaker air conditioner and furnace, assures you of optimum performance.
- g. UV Lights help prevent the growth of microbes on the coils.

Durable

The painted, galvanized steel cabinet features a powder-coat, baked-on finish and a coated inlet grille with narrower spacing to provide maximum protection as it allows for proper airflow and easy coil cleaning.

Aerodynamic

The aerodynamic air discharge design reduces operating sound, and the two-speed fan motor operates most of the time on the quieter, lower speed.

Efficient

The scroll compressor and the 7 mm copper tubing with aluminum fin coils increase efficiency for greater energy savings.

Service Friendly

Comfort Alert[®] diagnostic system and Plug & Play feature simplify wiring and make servicing faster and easier.

† Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR® criteria. Ask your contractor for details or visit www.energystar.gov.

♦ For information regarding furnace or fan coil options that can increase the energy efficiency of selected 13 and 14 SEER Comfortmaker air conditioners (SEER) and heat pumps (SEER and HSPF), go to Comfortmaker.com and look for “Energy Savings” on the menu.

‡ Timely registration required for 10 year parts limited warranty. Limited warranty period is 5 years for parts if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods.
