

YELLOW JACKET®

SOLAR/LIGHT POWERED DIGITAL LCD GAUGES

High-tech environmentally friendly solar/light powered gauges are available individually or on the popular YELLOW JACKET TITAN™ 4-valve forged aluminum manifold or the industry standard 41 Series brass bar manifold.

Gauge Features:

- Automatic pressure-temperature readout for eight commonly used refrigerants (R-22, R-134a, R404A, R-407C, R-410A, R-422D, R-427A and R-507)
- 1% accuracy
- PSI °F, PSI °C, bar °C and MPa °C
- Low side pressure scale of 30 inHg vacuum to 350 psig
- High side pressure scale of 0 to 800 psig

Solar/Light Gauges

UPC#	Description
49041	Red Pressure Solar Gauge
49042	Blue Compound Solar Gauge

TITAN™ Manifold Features:

- Exclusive 100 mesh filter in-line on all flare fittings helps keep out particulate material and extend the life of the seats
- Sight glass to easily view refrigerant movement and condition during charging and recovery
- Fourth hose to enable connection to high and low sides, refrigerant tank, and recovery unit or vacuum pump for diagnostics, evacuation and charging without switching hoses
- 3/8" vacuum port for use with larger hose to cut evacuation time by up to 33% (all other fittings on unit are 1/4")

41 Series Manifold Features:

- Proven sliding double "O"-ring pistons reduce wear
- Forged brass body for durability.
- Full porting maximizes capacity and flow

Solar/Light Gauges on Manifolds

UPC#	Manifold	Hose
41612	Series 41 2-Valve	None
41615	Series 41 2-Valve	60" RYB PLUS II
49792	TITAN 2-Valve	None
49795	TITAN 2-Valve	60" RYB PLUS II
49892	TITAN 4-Valve	None
49895	TITAN 4-Valve	60" RYB PLUS II
