

DX Fan Coils from XpediAir® offer Flexibility, Access, and the **Right Product, Right Now.**

DX Fan Coils for your every need in the Light Commercial or Residential Market. Models come in multiple configurations: Horizontal mounting in a furred down ceiling; Wall Recessed mounting in a wall or closet; or Multi-Positioned in a closet, attic or basement.

- Cooling Coils have either piston type metering devices or factory installed TXV's (R-22 or R-410A) and come circuited for cooling or heat pump systems.
- Heating is available with electric heat or hydronic coils.
- Member distributors have 24-hour access to XpediAir's IQ Business Systems to source information or process orders ...
