

Effective February 2009 the IMC and IRC now require that all outdoor access ports be made tamper resistant.*

*IMC 1101.10 Locking access port caps. "Refrigerant circuit access ports located outdoors shall be fitted with locking-type tamper resistant caps."

*IRC M1411.6 Locking access port caps. "Refrigerant circuit access ports located outdoors shall be fitted with locking-type tamper resistant caps."

NOVENT® Locking Refrigerant Caps

by **AIRTEC**

www.airtecproducts.com

NOVENT® Caps fit the standard Schraeder service valve on all central AC units and minisplits. Patented Novent Caps are precision machined from high grade brass surrounded by a protective aluminum shroud and can only be fitted and removed with a special tool.

- Seal service valve to prevent leaks
- Help prevent illegal venting of refrigerant
- Help prevent accidental refrigerant mixing
- Help prevent unauthorized access
- Reduce potential liability for inhalation induced injury or death

- Corrosion resistant.
- Integral neoprene O-ring resists all oils.
- Integral torque limiter prevents overtightening
- Resists crushing and removal without key.
- Easy to ID pocket tool or screwdriver tool fits all cap types.
- R22 & R410 caps are color coded and embossed for easy ID of refrigerant gas. Silver caps include adhesive labels for commonly used refrigerants.

NOVENT® products are available only to licensed refrigerant technicians and authorized personnel. They are distributed exclusively through HVACR distributors worldwide.
