S9B1 	92.1% AFUE			

EXCEPTIONAL COMFORT EVEN ON THE COLDEST DAYS.

When comparing equipment, it helps to have a standard of efficiency with which to measure performance. For furnaces, that standard is AFUE, or Annual Fuel Utilization Efficiency, which is a measure of how efficiently a furnace converts fuel into usable heat over the course of the entire heating season. The higher the AFUE, the less fuel you'll need to keep your home comfortable, the less you'll spend on energy, and the lower your carbon footprint will be.

You'll find that Trane 95 and 90 furnaces have impressively high AFUE values, and are an important part of a highly efficient Trane matched system. Because we're as committed to smart energy use as we are to your total comfort.

SEET™ TESTED

Every Trane system is put through some of the most extreme conditions found in nature in our SEET™ [Systems Extreme Environmental Test] lab. Put through five years of extreme wear and tear in just a few months, our products can stand up to the harshest environments imaginable.

**AMERICA'S MOST TRUSTED® HVAC BRAND
6 CONSECUTIVE YEARS¹**

**MOST RELIABLE HEATING AND COOLING
EQUIPMENT BRAND²**

¹Trane was named America's Most Trusted HVAC brand/system by Lifestory Research, a national research firm, based on a 2019 study of 11,000 consumers actively shopping or considering a product as compared with peer organizations of like size and complexity. Trane has received the highest numerical score for years 2015, 2016, 2017, 2018, 2019 & 2020. Your experiences may vary. Visit lifestoryresearch.com

A CLOSER LOOK

XC95m

Direct Vent

100% fresh air option reduces heat exchanger corrosion and ensures adequate combustion air.

Multi-Port In-Shot Burners

Perfectly shape the flame cone for the maximum heat possible while using less fuel.

Silicon Nitride Hot Surface Igniter

Highly reliable ignition system provides longer service life.

Fully Modulating Gas Valve

Highly reliable, proven design that operates between 40% and 100% depending on your specific heating needs, providing for ultimate comfort and greater efficiency.

Simplified Three-Wire Connection

Allows for easy installation and is less invasive to the structure of your home.

Automotive-Grade Gaskets And Insulated Blower Compartment

Helps reduce operating sound and air infiltration.

Durable Insulated Cabinet

Insulated panels hold more heat in the furnace, ensure greater durability and reduce operating sound.

Primary Heat Exchanger

Crimped, not welded, to prevent cracks from heat stress. Stamped serpentine channel offers the greatest efficiency in less space.

Secondary Heat Exchanger

Made of AL29-4C stainless steel to capture more of the heat you pay for.

Variable-Speed Draft Inducer

Works with modulating gas valve to enhance efficiency, comfort and reliability.

Variable-Speed Blower Motor with Comfort-R™

Allows quieter system startups and shutdowns, greater efficiency and more thorough heat circulation. Also helps control humidity levels during summer months.

Communicating User Interface

Clearly displays ComfortLink™ II diagnostics to your installer for easy setup and service.

Features and components may vary by model and are shown for illustration purposes only.

* An XL900 or XL1050 Trane thermostat is required with an XC95m for communicating capability.

Silicon Nitride Hot Surface Igniter

Provides a highly reliable ignition system for longer service life.

Multi-Port In-Shot Burners

Perfectly shape the flame cone for the maximum heat possible while using less fuel.

Two-Stage Gas Valve

Adjusts fuel use based on your heating demand, providing more comfort with lower, longer run times and reduced temperature swings.

Heavy Steel Insulated Cabinet

Holds more heat in the furnace, ensures greater durability and reduces operating sound.

Formed Steel Door with Smoked Acrylic View Windows for functional yet attractive appearance.

Stainless Steel Primary Heat Exchanger

Withstands higher temperatures, resists corrosion, and is efficient at heat transfer, while improving airflow efficiency in both winter and summer.

Secondary Heat Exchanger

Extracts even more heat from the combustion process and is made of corrosion resistant stainless steel.

Two-Speed Draft Inducer

Works seamlessly with the two-stage gas valve to enhance efficiency, comfort and reliability.

Variable-Speed Blower Motor with Comfort-R™

Allows quieter system startups and shutdowns, greater efficiency and more thorough heat circulation. Also helps control humidity levels during summer months.

Vortica™ II Blower

Quiet and efficient in both heating season and cooling season, and is only available from Trane.

The S-Series Furnace shown is the S9V2 and is for illustration purposes only. Please note that features and components may vary by model. As part of our continuous product improvement, Trane reserves the right to change specifications and design without notice.

All Trane XC95m and S-Series condensing furnace families have a Lifetime Limited Warranty on the heat exchanger and a 10 year Limited Warranty on internal functional parts (residential use only). Ask your dealer for full warranty information at time of purchase.

TRANE DEALERS ARE AS HARD TO STOP AS A TRANE ITSELF.

Independent Trane dealers take great pride in creating your perfect indoor environment. They are some of the most highly trained in the business and have an extensive understanding of the movement and conditioning of air and the expertise to advise, install and maintain the right system for your home.

WE ARE COMMITTED TO USING ENVIRONMENTALLY FRIENDLY PRINTING PRACTICES.

RUN YOUR HOME FROM WHEREVER LIFE TAKES YOU.

Nexia® allows you to manage your home remotely using most web-enabled mobile devices¹. **With just the touch of a button, you can unlock a door, turn on lights, or adjust your heating & cooling from a distance to save you energy.** Simply put, Nexia gives you home automation in the most simple and accessible way. All so that you can connect with your home, even when you're not at home.

¹Nexia Remote Climate Access is included with the purchase of a connected control. Adding accessories to your Nexia system requires a monthly subscription for remote access via most web-enabled smartphones and computers.

WHY IS INDOOR AIR QUALITY IMPORTANT?

We spend 90% of our time indoors, and 70% of that is in our home² where the air can be up to 5X poorer quality than the air outside³. **To help improve your indoor air, Trane offers a complete portfolio of air filtration equipment for whole home solutions for new and existing units.**

TRANE CLEANEFFECTS® AIR CLEANER

Utilizes patented technology to deliver cleaner air to the whole home by removing up to 99.98% of airborne particles⁴ that pass through the re-usable filter, including 99.9% of the Influenza A (H1N1) virus⁵. This level of filtration makes it up to 100X more effective than a standard 1" filter⁶. Plus, it's the **ONLY** whole-home electronic air cleaner that is certified **asthma & allergy friendly**⁷ by the Asthma & Allergy Foundation of America.

ENERGY RECOVERY VENTILATORS (ERV)

Provide an energy-efficient way to exchange air inside your home with fresh air from outside, removing lingering odors like cooking smells while improving overall air quality.

HUMIDIFIERS

Provide the right amount of moisture to the air throughout your home, adjusting from summer to winter.

Contact your Dealer or visit Trane.com/Residential to learn more.

²The National Human Activity Pattern Survey (2001) | ³U.S. Environmental Protection Agency, EPA/600/6-87/002a. (1987)

⁴Based on 3rd party testing of particle removal efficiency down to 0.3 microns (2005)

⁵As reported by airmid healthgroup in ASCR092142v2 (2015) | ⁶Assuming <1% removal rate of 0.3 – 10 micron particles
