THE DEFINITIVE NAME IN REFRIGERANT RECLAIM®

THE INDUSTRY'S **EASIEST**, MOST **COMPLIANT**, MOST **EFFICIENT** AND MOST **PROFITABLE** RECLAIM PROGRAM AVAILABLE **ANYWHERE**

COMPLETE CYLINDER MANAGEMENT

CONSOLIDATED
REFRIGERANT SOLUTIONS

DEFINING OUR INDUSTRY

The Definitive Name in Refrigerant Reclaim®

Zero Costs No Invoices

Designed in every regard to make it as simple as possible to manage cylinders and recovered refrigerants, our cylinder management reclaim program makes the reclaim process as **HANDS-OFF** and **PROFITABLE** as possible. Exceeding the scope of conventional "buyback programs" and "at shop cylinder services" our program is conveniently packaged to provide contractors with the **MOST** efficient, compliant, and profitable reclaim services available – **ANYWHERE**.

Clean Safe Certified Cylinders

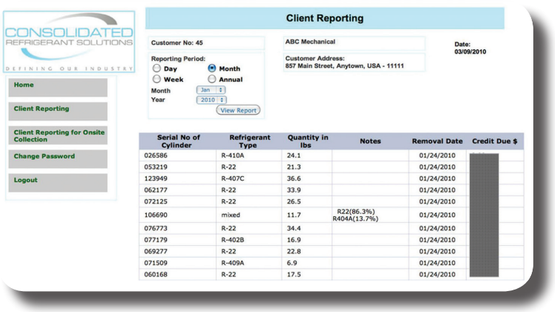
Our program truly delivers an **ALL** inclusive and **FULLY** comprehensive recovery cylinder exchange service. There are **ZERO COSTS** to empty or handle cylinders, zero costs for freight, and you are **NEVER INVOICED** for any reason. It offers everything a contractor needs in a reclaim program – profitable recovery, easy exchange process, high quality/safe/certified cylinders, and state-of-the-art **Centralized EPA Record Keeping**. It can be summed up in three words – **Complete Cylinder Management**.

Centralized Record Keeping

How It Works…

TO START…We will send out an introductory shipment containing everything you need to easily palletize your full cylinders for shipping. **NEXT…** When your cylinders are full simply contact us and we will immediately ship out a fresh batch of cylinders. Each one of our high quality DOT certified cylinders are evacuated, shrink wrapped, pre-tagged and ready to go. **THEN…**On the same day we will arrange the pick up of your full cylinders. When your cylinders arrive back to our shop you will be notified that they have arrived. **FINALLY…**Upon arrival each cylinder is weighed, tested, and analyzed. Your data is immediately uploaded to our secure **Reclaim Data Management System®**. **REPEAT…** When you need another delivery/exchange, call us again and the process is repeated… it's that ***simple*** and ***simply*** couldn't be any **EASIER!**

Key Benefits of Our Reclaim Program

- **Buyback** of your recovered R22 and other valuable refrigerants
- Reclaim and Return – Secure your own Supply of R22
- No in-house consolidation – we exchange your 50lb or 30lb cylinders
- No costs to empty cylinders – straight forward payout
- State-of-the-Art EPA Record Keeping
- Cylinder recertification and upgrades as needed – free of charge / on us
- All refrigerants and cylinders exchanged – all included in service


Our detailed logging procedures and state-of-the-art Reclaim Data Management System® (RDMS) provide the industry's most precise, comprehensive, and accessible EPA documentation. Our meticulous per cylinder logging system enables you to track and document each pound of refrigerant from any cylinder from any client on any date from any job going back as far as you've been a client. Your data is highly accessible and available at our website with secure log-in.
